Introduction

Thank you for purchasing the 59048 Digital MP4 Player. This new generation USB digital portable versatile player allows you to upload and playback movies, view photos, listen to your favorite songs, karaoke sing along, read e-books, record and playback voice messages and more…

To transfer media from your computer to your Digital MP4 Player simply plug the player via the USB cable (included) to the USB slot at the base of the player. Plug the other end of the USB cable to an available USB port on your computer.

- Click 'PC Connect' and the inbuilt Management Tool will automatically open on your computer screen.
- No CD or external software applications need to be installed.
- Truly a portable player that can be plugged in and used on any compatible PC wherever you are.
- Easily transfer and remove movies, photos and songs to and from your player
- This player supports multiple music and photo formats

What's Included

- Digital MP4 Player with built-in rechargeable Li-ion battery
- Built-in Management Tool
- User Manual
- USB cable
- Earphones

Computer System Requirements

- Microsoft Windows XP SP3, Vista SP1 or 7
- INTEL PROCESSOR Based MAC with MAC OS X 10.5 or Higher
- Pentium® 4, Celeron®AMD, Athlon®processor or higher
- AGP video card recommended
- 128MB RAM
- 100MB free hard drive space
- Available USB Port
- 16-bit color display adapter
- 1024x768 screen resolution

Charging the Battery

This player has an in-built rechargeable Li-ion battery. Before using and powering on your player for the first time you will need to charge it up.

1. Connect the player to your computer via the USB cable.
2. The **USB Connect** window will appear on the LCD screen of the player when the USB cable is properly connected with the Player.
3. The 'PC Connect' option on the LCD screen is highlighted by default.
4. Press the Up or Down button to select the 'Exit' option.
5. Press the ▶︎❙❙ ENTER button to confirm the selection.
6. The Main Menu screen appears on the LCD.
7. The battery status indicator will show the progress of the battery charging.
8. Leave the player plugged into your USB port for 3 to 4 hours before you begin to use it. This will allow you to start using all the many features for hours of fun.
9. When the charge is completed the LCD screen will display the still full battery indicator.

Note: All functions are available during charging.

Powering on/Off Your Player

POWER ON

Note: The player will not power on if the battery power is low. Please charge the battery before using the player.

1.   Slide the ON/OFF switch on the top of the player ON.
2.   The Opening 'Welcome' animation graphic will appear on the screen.

Opening
Screen
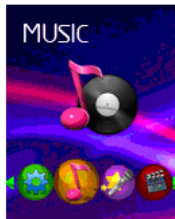

Main Menu
Screen

3.   The Main Menu screen will appear a few seconds later.
4.   Your player is now ready to be used.

POWER OFF

To Power off the player manually:
1.   Slide the ON/OFF switch on the top of the player to OFF.
2.   The 'Goodbye' graphic will appear on the screen before the player powers off.
3.   Alternatively, while the player is set to ON, press the ENTER button for about three
      seconds to power off the player.
      Press the ENTER button again to turn the player back on.

Note: The power will not turn off if the player is still processing – such as recording, transmitting
data or updating firmware.

AUTO POWER OFF

The Player will also automatically power off in the following situations:
1.   Sleep Mode
2.   Power Saving Mode
3.   Low Battery

(low battery screen)

- To save power, the Player has an 'Auto Power Off' setup feature that allows you to set the time for the player to automatically power off if it is not in use.
- Auto Power Off is set by default to power off after 30 minutes when the player is not active.
- The power will not turn off if the player is still processing – such as recording, transmitting data or updating firmware.

## The Main Menu

There are 8 menu functions:

Music, Karaoke, Movie, Record, Voice, Photo, E-book and Setup

All the functions can be accessed from the Main Menu screen that appears when powering on the player.
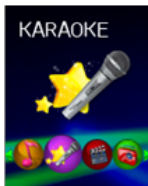

1. Power on the player.
2. The first menu option to appear on the screen is Music.
3. To select the other functions press the ◀◀ LEFT or ▶▶ RIGHT buttons.
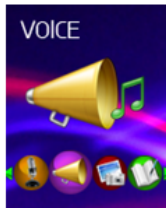

| Main Menu Screen			
1	**2**	**3**	**4**
MUSIC	KARAOKE	MOVIE	RECORD
5	**6**	**7**	**8**
VOICE	PHOTO	E-BOOK	SETTING
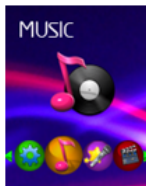

4. Press the ▶❙❙ ENTER button to select and open the selected function.
5. If no media has been transferred to that menu function an "Empty Folder" message will appear on the LCD screen.
6. To transfer media form your PC to the player, plug the player into the USB port of you PC and read the next section.

Connecting the Player to your Computer

To transfer media from your PC to your Digital Video Player:
1. Connect the smaller end of the USB cable to the USB slot on the base of the player.
2. Connect the other end of the USB cable to an available USB port on your PC.
3. Make sure the player is on.
4. The **USB Connect** file menu will appear on the LCD screen.

5. Press the ⏮ LEFT or ⏭ RIGHT buttons to select the 'PC Connect' option.
6. Press the ▶II ENTER button to confirm the selection.
7. The following window will automatically appear on your computer screen.

8. Click the 'Connect' button to activate and open the **Management Tool** application on your PC.

9. If this AutoRun application does not open when you click the 'Connect' button, open 'My Computer' or 'Windows Explorer' and double-click the AutoRun icon that appears.

AutoRun

Transferring Files to your Player

Using the **Management** Tool you can transfer *Photos, Music, Videos and Karaoke* sound files on your PC directly to your Digital MP4 Player.
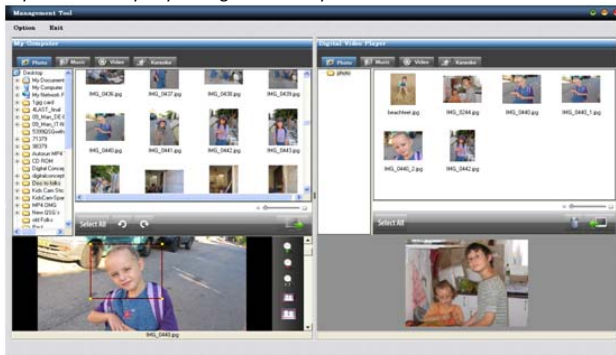

The Management Tool is divided into 2 windows: 'My Computer' and 'Digital Video Player'.

MY COMPUTER

1. The window on the left shows all the files and folders on your PC.
2. In the left hand corner of the screen is a directory of files and folders on your computer.
3. Select one of the media type tabs *Photo, Music, Video or Karaoke* at the top of the Directory Window.
4. Find the picture files, music files, video files and karaoke files that you would like to upload and transfer to your player.
5. The selected folder with thumbnail files will appear to the right of the directory window.
6. Select the file thumbnail you wish to transfer to the Player.
7. The file appears in the View Screen below the folder window.
8. You can adjust the appearance of the Photos by clicking the following button option icons to the right of the View Screen:

 (Zoom in), (Zoom out),

 (Rotate Left), (Rotate Right),

 (Actual Size),

 (Reset Photo),

 (Crop Photo – the adjustable crop area is saved as a new photo to your player).

9. To transfer the file to the PC, press the **Transfer File** button.

10. The selected file is automatically transferred to the Player.

Note: All functions are disabled during PC connection.

DIGITAL VIDEO PLAYER

1. To see the file that has been transferred to the player, click the relevant *Photo, Music, Video* or *Karaoke* tab on the right side of the main window.
2. The media file that has been transferred will appear.
3. All the files that appear in this right hand window when the player is connected to the PC are the files that have been successfully uploaded and transferred to your player.
4. You can also delete media from the Player by selecting the file to delete and pressing the **Delete** button.

5. The media on your player can also be transferred to any connected PC. Select the file you wish to save to the PC. Select the folder where you wish to save the file on the PC from the 'My Computer' list of folders on the left side of the screen. Press the '**To PC transfer**' button to transfer the file to your computer.

## Viewing and Editing Media Transferred to the Player

To enjoy the media that you have transferred to your player, remove the USB cable, turn on your player and select the relevant Menu function on your player.

VIEW MEDIA

To see all the media on the player in each of the menu function you can use the **File Browser.**

1. Turn the Player on.
2. Select the Menu Function *Music, Karaoke, Movie, Record, Voice, Photo or E-book* from the Main Menu*.*
3. Press the ▶❙❙ ENTER button to confirm the selection.
4. The selected Function will open.
5. Press the ▶❙❙ ENTER button to open the File Browser.
6. Select the **Local Folder** option and press the ▶❙❙ ENTER to see all the files in that function folder.
7. Press the ❙◀◀ LEFT or ▶▶❙ RIGHT buttons to select a file.
8. Press the ▶❙❙ ENTER button to confirm.
9. The selected media file will be displayed to play or view.

10. Press the **MENU** button for 3 seconds to exit the Menu Function and return to the Main Menu screen.
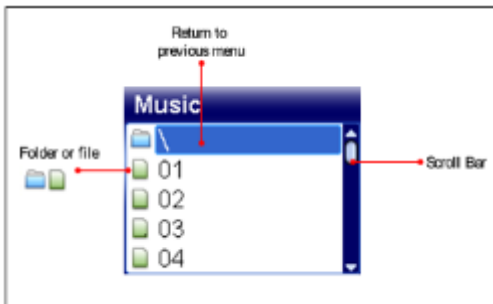

File Browser

DELETE MEDIA

To delete a selected media file or delete all the media file in a function:

1. Turn the Player on.
2. Select the menu function Music, Karaoke, Movie, Record, Voice, Photo or E-book from the Main Menu.
3. Press the ▶ll ENTER button to confirm the selection.
4. The selected Function will open.
5. Press the **MENU** button to open the File Browser.
6. Press the |◀◀ LEFT or ▶▶| RIGHT buttons to scroll down the list:
   - Select the **Delete** option if you wish to delete the currently selected file in that function.
   - Select the **Delete all** option if you wish to delete all the media files in that function.
   - Select the **Exit** option to exit the File Browser and return to the current media file.
7. Press the ▶ll ENTER button to confirm the selection.
8. If you selected to delete the current file, the selected media file will appear in a 'Delete' confirmation screen with 'YES' and 'NO' options:

- Press the ⏮ LEFT or ⏭ RIGHT buttons to select 'YES' or 'NO'.
- Press the ▶II ENTER button to confirm the selection.
9. If 'Yes' is selected, the selected media file(s) will be deleted.
10. Press the **MENU** button for 3 seconds to exit the Function Screen and return to the Main Menu.

Controlling the Volume

In the Music, Karaoke, Movie and Voice functions the volume can be adjusted and controlled. The volume range is 0 to 31.

Volume Control

1. Press the **VOL** button to activate the Volume Control bar graphic.
2. Press the ◄◄ LEFT button to DECREASE the volume.
3. Press the or ►►I RIGHT button to INCREASE the volume.
4. Press the ►II ENTER button to save and exit the volume setting.

The Music Menu Function
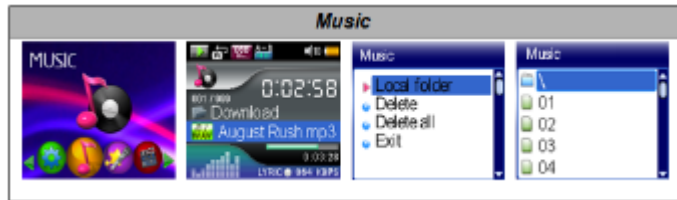

PLAYING MUSIC
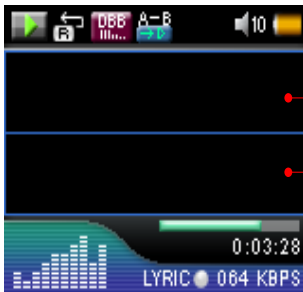

1. Turn the power on.
2. The Main Menu Screen appears.
3. Press the ⏮ LEFT or ⏭ RIGHT button to select the **Music** Function option.
4. Press the ▶ǁ ENTER button to confirm and open the Music screen.

5. In the Music Screen press the ◄◄ LEFT or ►►◄ RIGHT button to select a song to play.
6. The Music file information (name, length, format, bit size, number of song, etc) will appear on the screen.
7. Press the ►‖ ENTER button to START PLAYING the song file.
8. Press the ►‖ ENTER button again to PAUSE the song.
9. Press the ◄◄ LEFT or ►►◄ RIGHT button to play the previous or next song in the list.
10. Press the **MENU** button for about 3 seconds to return to the Main Menu Screen.

TRANSFERRING TXT TO THE PLAYER

The Management Tool application does not have an E-BOOK upload feature.
The TXT files that you wish to transfer to your player need to be uploaded manually.
In order to transfer TXT files from your computer to the player, please follow these instructions:

1. Connect the Player to your PC.
2. Open the Management Tool as described in the "**Connecting the Player to your Computer**" and "**Transferring Files to Your Player**" sections of this manual.
3. Open 'My Computer' and open the **Removable Disk** icon that appears when the Player is connected.
4.   The Folders associated with the Player functions appear.

5.   Drag and Drop the TXT file(s) from your computer to this Root Directory.

6.   Congratulations! The TXT file(s) will now appear in the E-Book Menu Function on the Player.

Important Note:
Do <u>NOT</u> drag and drop the TXT file(s) into the folders that appear below (karaoke, photo, video, music, record).
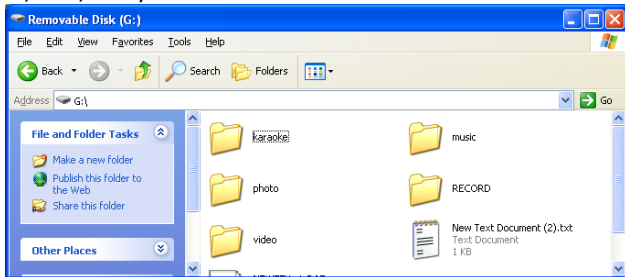

The Setup Menu Function

The Setup menu is used to personally change the setting and preference of your device.

The Setup Menus include:

System style, LCD set, Language, Power off, Memory information, Firmware version, Reset and Exit
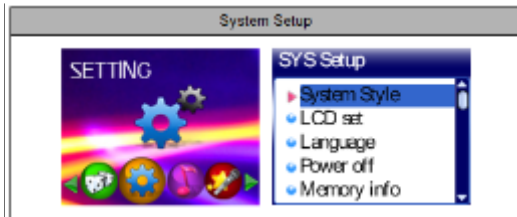

1. Turn the power on.
2. The Main Menu Screen appears.
3. Press the |◀◀LEFT or ▶▶| RIGHT button to select the **Setup** option.
4. Press the ▶|| ENTER button to confirm and open the Setup screen.

5. Press the |◀◀ LEFT or ▶▶| RIGHT button to select the Setup submenu.
6. Press the ▶|| ENTER button to enter the submenu.
7. Press the |◀◀ LEFT or ▶▶| RIGHT button to select the submenu option.
8. Press the ▶|| ENTER button to confirm and save the setting.
9. Press the **MENU** button for about 3 seconds to return to the Main Menu Screen.

SETUP OPTION

Setup	Description

Troubleshooting

No Power	Check power switch has been power on.
No sound is heard from earphone.	Check whether Volume is set to "0" and connect the headphone plugs firmly. Check whether the headphone plug is dirty. Make sure that the music files are not corrupted. Corrupted sound files may make a static noise and the sound may cut off.
Characters in LCD are corrupted	Check whether the right language has been selected.
Download of files fails.	Check whether USB cable is damaged and is connected properly. Check whether the player's memory is full.

This device complies with the part 15 of the FCC rules. Operation is subject to the following two conditions:(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with instructions may cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on. The user is encouraged to try to correct the interference by one or more of the following measures:

__ Reorient or relocate the receiving antenna.
__ Increase the separation between the equipment and receiver.
__ Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
__ Consult the dealer or experienced radio/ TV technician for help.

Connecting and Transferring Files using A Mac

1. Connect the USB cable included with your package to the USB port of the MAC.
2. Open the "File finder" and you will see an external drive named "untitled". Note that sometimes this drive is labeled with the model number or similar name of the player.
3. Open itunes. Drag and drop compatible media files (please refer to page 9 regarding file format compatibility) from your Mac to the player.
